KTX CUTTER SCREW
Low Driving Torque & Least Wood Splits

Cabinet Installation Screws With the Patented KTX Cutter

The KTX Cutter screws were developed by Kwantex Research in Taiwan with two goals - eliminate splitting and reduce driving torque. The KTX Cutter achieved both of these goals and is the premium fastener for cabinet installation.

Features of the KTX Cutter Installation Screws

The KTX Cutter screws are protected by U.S. , Taiwan and Chinese patents.
Beware of imitation products that claim to be KTX Cutter Screws but are not.
